Auditor's Report.

To the Citizens of the Town of Saugus:

In presenting you the annual Town report for the year 1907, I trust that every citizen that has the welfare of the Town at heart, will give it their most careful study and attention, so that at the coming annual meeting, all appropriations that will come before you, may be acted upon with that degree of intelligence, and discretion that the economical administration of the financial affairs of the Town at the present time demands. You will see that the deficiency the past year has been reduced by over \$9,200 which is certainly a step in the right direction, but we must not forget the fact that this result has been brought about by a large assessment the past year and although the tax rate was \$2.00, less per thousand than the year before, yet many of our citizens believe that the large increase in the assessed value of their property by the Board of Assessors in many cases ranging from forty to one hundred per cent, was entirely unjust and uncalled for and that it would have been much better and far more satisfactory to have kept the assessed value down and have raised the rate to corresponding figure. A low tax rate is liable to breed extravagance in expenditures, requiring larger appropriations and that fact has been demonstrated time and time again. This high assessed valuation and the general financial condition of the past few months may be responsible in a large measure for the fact that we have over \$21,000 more uncollected taxes than a year ago.

I would call your especial attention to the report of Mr. Thomas P. Parsons, wherein he shows that during the past ten years the excess of expenditures over receipts of the Town was

\$25,637.08. During the past eleven years we have spent about \$175,000 on school-houses, the water system, and the Hathaway place. Our funded debt on January 1, 1896 was \$207,150 on January 1, 1908, \$268,150 while the property held and owned by the Town on January 1, 1896 as per appraisal was \$199,900 on January 1, 1908 it is appraised at over \$420,000. Surely there is much food for thought in these figures.

I have examined the books of the Treasurer, Collectors, Overseers of the Poor and found proper vouches for all payments made.

Respectfully submitted,

GEORGE PARSONS,

Auditor.

SAUGUS, Feb. 15, 1908.

ANNUAL TOWN MEETING

ESSEX, SS.

To Charles A. Blakeley, Constable of the Town of Saugus,

GREETING :

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Saugus qualified to vote in Town affairs, to meet at the several voting precincts in the Town, on Monday, March 4, A. D. 1907, at 5.45 o'clock A. M., then and there to bring in their ballots to the Wardens for the following Town officers :

Town Clerk, three Selectmen, three Overseers of the Poor, Treasurer, Auditor, Constable, Collector of Taxes, Tree Warden, three Fence Viewers, for one year ; one Finance Committee for two years, one Assessor, one Sinking Fund Commissioner, three Trustees of the Public Library, one Board of Health, one Water Commissioner, one School Committee, one Cemetery Commissioner, three Finance Committee for three years.

Also your answer Yes or No to the following question :
"Shall license be granted for the sale of intoxicating liquors in the Town for the ensuing year?"

Also to appear at the Town Hall, on Monday evening, March 11, A. D., 1907, at 8 o'clock, to hear and act on the following articles, viz. :

The polls will open at 5.45 o'clock A. M., and may close at 4.30 P. M. and you are hereby directed to serve this Warrant by posting attested copies at the usual places, seven days at least before the time of holding said meeting, and to distribute copies as provided by the By-Laws at least four days before.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the Town Clerk, at the time and place of meeting.

Given under our hand and Town Seal this Eighteenth Day of February, A. D. 1907.

CLARENCE W. FOX,
HERBERT M. FORRISTALL,
CHARLES F. CLARK,

Board of Selectmen.

ESSEX, SS.

SAUGUS, March 4, 1907.

Pursuant hereunto I have served this Warrant as within directed.

CHARLES A. BLAKELEY,

Constable.

Voted, That the sum of \$1,000 be and hereby is appropriated for the maintenance of its water system, the same to be expended under the direction of the Water Commissioners.

ART. 42. To see if the Town will accept Chapter 104 of the Public Statutes in regards to the Construction and Inspection of Buildings, or to see what action the town will take in the matter.

Voted, To accept Chapter 104 of the Public Statutes.

ART. 43. To see if the Town will instruct the Selectmen to install gas fixtures in the Town Hall, and make an appropriation

for the same, or to see what action the town will take in the matter, agreeable to the petition of Justin E. Mansfield and others.

Voted, To indefinitely postpone.

ART. 44. To see if the Town will remove the Public Library from its present location to the Old Town Hall building on Taylor street, and make an appropriation therefor and for fitting the building for occupancy, or to see what action the town will take in the matter, agreeable to the petition of Levi G. Hawkes and others.

Voted, To indefinitely postpone.

ART. 45. To see if the Town will authorize the Cemetery Commissioners to purchase or take, by right of eminent domain, the parcel of land belonging to the heirs of the late Charles W. Wilson, between the cemetery and the estate of J. B. True, on Winter street, for cemetery purposes, and make an appropriation of \$3,000 for the same, or to see what action the Town will take in the matter, agreeable to the petition of J. S. Meacom and others.

Voted, To indefinitely postpone.

ART. 46. To see if the Town will vote to purchase 2,000 feet of hose for the Fire Department and make an appropriation for the same, or to see what action the town will take in the matter, agreeable to the petition of Charles A. Blakeley and others.

Voted, That the sum of \$1,080 be and hereby is appropriated for the purchase of 2,000 feet of hose for the fire department, same to be expended under the direction and supervision of the Selectmen.

ART. 47. To see if the Town will appropriate the sum of \$45 to defray the cost of a memorial stone to be placed in the monument now being built at Provincetown, Mass., to commemorate the first landing of the Pilgrims and signing the compact in the cabin of the Mayflower, in 1620, or to see what action the Town will take in the matter, agreeable to the petition of Horace H. Atherton, Jr., and others.

Voted, To refer Article 47 to the Selectmen, and that it is the sense of this meeting that the Town should be represented in the monument now being built at Provincetown, Mass., to commemorate the first landing of the Pilgrims and signing the compact in the cabin of the Mayflower, in 1620, by placing in said monument a memorial stone not to exceed a cost of \$45.

Voted, To dissolve the meeting, 10.15 P. M.

A true copy. Attest,

HENRY A. PARKER,

Town Clerk.

SPECIAL TOWN MEETING.

ESSEX SS.

To either of the Constables of the Town of Saugus:

GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Saugus, qualified to vote in Town affairs to meet at the Town Hall on Thursday evening, July 25, A. D., 1907, at 8 o'clock to hear and act on the following articles, viz:

And you are hereby directed to serve this Warrant by posting attested copies at the usual places seven days at least before the time of holding said Meeting, and to distribute copies as provided by the By-Laws at least four days before.

Hereof fail not and make due return of this Warrant with your doings thereon to the Town Clerk at the time and place of meeting.

Given under our hands and Town Seal this Fifteenth Day of July, A. D. 1907.

FRANK P. BENNETT,
HENRY F. FISKE,
ISAAC E. GRAVES,

Board of Selectmen.

ESSEX SS.

COMMONWEALTH OF MASSACHUSETTS.

SAUGUS, July 24, 1907.

Pursuant hereunto I have served this Warrant as within directed.

TOM D. EMMETT,
Constable.

SAUGUS, July 25, 1907.

ART. 1. To choose a Moderator to preside at said meeting. Chose Thomas P. Parsons, who being qualified by the Town Clerk took charge of the meeting.

ART. 2. To hear and act on Reports of Committees.
Voted, To accept the report of the Finance Committee.

ART. 3. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to hire money and give notes of the Town for the same for the following purposes:

1st. For the purpose of paying notes coming due the present year.

2nd. To hire money temporarily, not exceeding \$17,000, for one year, in anticipation of the taxes of the year 1907.

Voted, That the Town Treasurer, with the approval of the Selectmen be, and hereby is authorized to hire money temporarily not exceeding one year in anticipation of the taxes of the year 1907, and give notes of the Town for the same, and that all money so hired shall be expressly made payable from such taxes of 1907. The whole amount so hired under this vote not to exceed the sum of \$17,000, yeas, 38, nays, 0.

ART. 4. To see if the Town will authorize the Town Treasurer with the approval of the Selectmen, to make water loans, not to exceed \$5,000, for the extension of the water system, or to see what action the Town will take in the matter.

Voted, That two-thirds of the legal voters present and voting, having voted therefor, that for the purpose of procuring a loan to and for the use of the Town of Saugus to pay for the extension of the water system, the Treasurer is hereby authorized and directed to borrow from time to time, with the approval of the Selectmen, a sum or sums in the aggregate not exceeding \$5,000 and to execute and deliver the note or notes of the Town

therefor, payable within ten years from the time the loan is made, with interest at a rate not exceeding 6 per cent. per annum, yeas 41, nays 1.

Voted, At 8.14 P. M., to dissolve the meeting.

A true copy. Attest.

HENRY A. PARKER,
Town Clerk.

STATE ELECTION, NOV. 5, 1907.

ESSEX SS.

To either of the Constables of the Town of Saugus,

GREETING :

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Saugus, qualified to vote at Elections, to meet at the several voting precincts in the Town, on Tuesday, November 5th, A. D. 1907, at fifteen minutes before six (5.45) o'clock A. M. then and there to bring in their ballots to the Wardens for the following State Officers, all on one ballot :

Governor, Lieutenant Governor, Secretary, Treasurer, Auditor, Attorney General, Councillor for Sixth District, Senator Seventh Middlesex District, Two Representatives to the General Court, (15th Essex District) County Commissioner, Two Associate Commissioners, District Attorney, Sheriff.

The Polls will open at fifteen minutes before six o'clock, A. M. and may close at 4 o'clock, P. M., and you are hereby directed to serve this Warrant by posting attested copies at the usual places, seven days at least before the time of holding said meeting.

HEREOF FAIL NOT, and make due return of this Warrant, with your doings thereon, to the Town Clerk at the time and place of said meeting.

Given under our hands and Town Seal this fifteenth day of October, A. D., 1907.

FRANK P. BENNETT,
HENRY F. FISKE,
ISAAC E. GRAVES,

Selectmen of Saugus.

A true copy. Attest.

HENRY A. PARKER,

Town Clerk.

ACTS OF 1897, CHAP. 444.—AN ACT RELATIVE TO THE REGISTRY AND RETURN OF BIRTHS.—SECTION 3. Physicians and midwives shall on or before the fifth day of each month report to the clerk of each city or town a correct list of all children born therein during the month next preceding, at whose birth they were present, stating the date and place of each birth, the name of the child if it has any, the sex and color of the child, the name, place of birth and residence of the parents, the maiden name of the mother, and the occupation of the father. Any physician or midwife neglecting to report such list for ten days after it is due shall for each offence forfeit a sum not exceeding twenty-five dollars.

Report of Finance Committee.

To the Citizens of the Town of Saugus:

With the appreciation of the trust imposed upon us by the citizens of the Town, it is our honor and privilege to again invite your attention to matters of utmost importance to be weighed by thinking men, as they are matters wholly outside the pale of political party and properly belong to the whole people whose municipal affairs and well being are to be administered.

Economical and judicious administration of a Town like Saugus or any town is demanded, first, because it is right. There is a right way and a wrong way of doing everything and we try to stand for the right.

Second, because a wasteful or extravagant administration of the business of the Town is detrimental to the Town's best interests and a betrayal of the trust reposed in the Town government by tax payers.

Third, because wasting the finances of the Town is wrong and the Town is unable adequately to do that which is demanded of an advanced modern government. The heavy burden of debt affects everybody, because it effects the taxes. It discourages new enterprise, it repels industry which might otherwise seek to establish itself within the Town bounds. It is a proof of wastefulness and indifference in the conduct of public affairs. We are strongly of the opinion that departments should live within their income or in other words no money should be expended by any board in excess of the amount appropriated by the Town. We believe this should be strictly adhered to. The Town is simply a large corporation and as such the best results can only be obtained when keen business principles are applied to all that pertains to the welfare of the Town. This year we are confronted with a condition brought upon us by our board of

assessors having marked up the value of real estate in Town. This simply reflects judgment of the board as to the real value of the property, but it will not relieve us one dollar of taxation, our tax bills will be just as high or higher though the rate may be lower and it is dangerous for this reason. The unthinking will talk upon the low rate, forgetting increased valuation and ask for all kinds of extravagant appropriations until they get a tax rate even with the increased valuation. This has been the experience of neighboring towns to their sorrow. It is only by arousing the unselfish public spirit of all the citizens that we can secure that character of government which such a Town as Saugus requires and deserves to have and it is far more important than the partisan disputes of aspirants for political office for it bears upon every part of local government. Any intelligent man expects and insists that his business shall be managed with intelligence and the citizens should take a vital interest in our municipal affairs because of their immediate effect upon every person in the Town. Public spirit should be shown in bringing civic questions prominently before the Town in order that the views of our citizens may be obtained upon matters of such importance to the community. It is for the consideration of such problems that the Finance Committee feel we should all work heart and soul for the real and permanent betterment which will lift our civilization to a higher level of usefulness.

For the Committee,

EDGAR B. OLIVER, *Chairman.*

F. C. CHEEVER, *Secretary.*

SAUGUS, January 14th, 1908.

RECOMMENDATIONS FOR

Municipal Appropriations for Year 1908.

Schools, including Superintendent .	\$35,400 00
Selectmen's Incidentals	6,000 00
Overseers of the Poor	2,800 00
Water Loan (principal)	5,000 00
School House Loans (principal) .	
Roby	3,000 00
Lynnhurst (principal)	350 00
1905 School-houses (principal)	2,000 00
Hathaway Bond (principal) .	4,000 00
Interest	11,500 00
State and Military Aid	3,000 00
Highways and Bridges	3,000 00
* Assessors' Department (see foot note)	
Police	4,250 00
Street Lighting	6,800 00
Insurance	200 00
Repairs, Town Buildings and	
Grounds	1,000 00
Board of Health	1,600 00
Sidewalks	200 00
Tree Warden	200 00
Expense of Lockup, defrayed by	
Court fines	
Fire Department	2,000 00
Library, Receipts, Dog tax, and .	500 00
<i>Amount carried forward,</i>	\$92,800 00

<i>Amount brought forward,</i>	\$92,800 00	
Soldiers' Relief	480 00	
Sinking Fund	1,000 00	
Water Maintenance	500 00	
Repairs, interior school buildings .	500 00	
Riverside Cemetery	2,600 00	
Gypsy and Brown Tail Moth . .	2,274 83	
Hydrant Service	504 00	
Salaries, (estimated)	4,025 00	
		\$104,683 83
State Tax (estimated)	\$7,465 00	
County Tax (estimated)	5,214 00	
		12,679 00
		\$117,362 83

*As it is in the Assessors' Department that the revenue of the Town is made, it is necessary that a thorough knowledge of its condition be obtained by this Committee, before making an intelligent recommendation for its needs. In view of what information the Finance Committee have been able to obtain to date, also that no report has yet been possible from the examination of its books, ordered by the Selectmen, and the uncertainty of the present Board of Assessors remaining for another year, the Finance Committee believe it would be unwise at this time to attempt to make any recommendation. Before the annual Town meeting in March, we shall have obtained much more information and a more complete knowledge of the situation, which will enable us to give an intelligent estimate at that time of the needs of this Department.

Report for action upon Articles under Warrant acted upon in Meeting of March 11, 1907.

Report of Board of Selectmen.

To the Citizens of Saugus:

In submitting a brief report at the close of the year, we desire to congratulate the Town upon the generally excellent condition of your affairs. All of the departments have been efficient, but there is one matter which demands your serious attention, and that is the deficiency of a working balance in the treasury, due to inadequate assessments of taxes during the past thirteen years. For this reason the Town of Saugus has recently found itself in the condition of a well-to-do business man who might have a large amount of unencumbered property, but who might be unable to meet his liabilities with promptness because he had neglected to provide himself with a sufficient balance of cash at the proper time.

Confronted with this condition, your Board of Selectmen employed an expert accountant, Mr. Thomas P. Parsons, to examine the Town books for the past twenty years, and the result of his investigations will be found elsewhere in this volume. He reports that the inadequacy of the tax levy from January 1st, 1895, to Jan. 1st, 1908, aggregate \$35,587.79; and while the surplus collections for the previous seven years were \$29,496.65, yet that sum may have been very likely absorbed by previous deficiencies. In any event, while the Town treasury seems to have been supplied with an adequate working balance previous to 1895, its cash resources have been steadily diminishing since that time.

We recommend, therefore, that the Town petition the General Court, through its Board of Selectmen, for permission to issue bonds to the amount of forty thousand dollars (\$40,000) outside

of the debt limit for the purpose of repairing this deficiency. As the time for introducing new business in the present Legislature expired in January, we have had such a bill presented merely for the purpose of insuring the parliamentary standing of the measure, should the town see fit to accept our recommendations.

The general condition of your streets are good, but as close an economy as has been exercised during the past year cannot be permanently anticipated in a town which is surrounded by cities, and which is a suburb of Boston. We have delayed repairs upon the East Saugus bridge, because we hoped to take advantage of the recent fire to secure the co-operation of the County Commissioners in widening the thoroughfare at that point, and we now expect to be able to present a proposition to the Town in the near future which will result in the completion of that desirable public improvement at a moderate cost.

Your Board has also received some encouragement as to the taking of the Newburyport Turnpike as a State Highway. We desire to commend the work of the Gypsy Moth Department in our Town during the past year, and to report our commendation of the general efficiency of the Police, Fire, Highway and other departments.

While we expressed to your Finance Committee a desire to keep the "Selectmen's Incidentals" down to Six Thousand Dollars for the coming year, we have since found that witnesses' and legal fees in pending lawsuits will necessitate the appropriation of at least sixty-five hundred dollars for "Incidentals."

Respectfully submitted,

FRANK P. BENNETT,
HENRY F. FISKE,
ISAAC E. GRAVES.

Report of Thomas P. Parsons.*The Honorable the Selectmen of the Town of Saugus:*

GENTLEMEN,—In accordance with your request, I have made an examination of the accounts of the Town, as shown by the Annual Town Reports, covering the period from January 1, 1888, to the close of the fiscal year December 31, 1907. The purpose of this examination has been, 1st, to see if the taxes assessed each year together with the miscellaneous income received have been sufficient to pay the running expenses of the Town, not otherwise provided for, and the abatements allowed; 2nd, as to what amount of the Town's income has been deducted in arriving at the tax assessment and the amount of overlay used; 3d, to find the amount of the abatements given on each year's taxes. I submit herewith a table showing, 1st, the year; 2d, the amount of tax assessed and given to the Tax Collector for collection; 3d, any assessments; 4th, the amount of the miscellaneous income; 5th, the total; 6th, the payments, not covered by Bonds or other special provisions; 7th, the abatements given; 8th, the total; 9th, the excess of Receipts over Expenditures; and 10th, the excess of Expenditures over Receipts. I also submit on separate sheets, Schedule A., showing the details of the Tax Assessments each year, except in 1888 and 1889, for which years they could not be obtained; Schedule B., the Abatements given; Schedule C., the details of the Miscellaneous Income, and Schedule D., the payments not covered by Bonds or special funds. As shown by the above table the excess of Expenditures for the twenty years from January 1, 1888, to January 1, 1908, has been \$6,091.14. This, however, will be increased by any future abatements that may be given on the taxes remaining unpaid for 1899, 1900, 1902-3-4-5-6-7. If, however, we divide this period into two parts, viz: January 1, 1888, to January 1, 1895, and January 1, 1895 to January 1, 1908, it will be found that while in the first period the Receipts exceeded the Expenditures by \$29,496.65 in the second the Expenditures exceeded the Receipts by \$35,587.79, and this will be increased by any future abatements. The good showing in the first period can in part be accounted for by the small amount of the income used in

arriving at the Tax Assessment. In 1888-89-90 apparently no income was used, while the income was \$4,700.82, \$6,672.31 and \$7,767.52, respectively, while in 1891-2-3-4 the amount of income used was only from one-half to one-third of the amount received. The use of the income has gradually increased until in 1901, we find the income to be \$13,529.87, amount used \$9,000.00; in 1902, income \$13,576.97, amount used \$13,000; in 1903, income \$13,135.77, income used \$16,455.56; in 1904, income \$14,938.57, income used \$12,395.85; in 1905, income, less Gypsy Moth receipts, \$15,669.11, income used \$13,359.50; in 1906, income, less Gypsy Moth receipts, \$16,278.93, income used \$13,705.93; in 1907, income, less Gypsy Moth, but including eighteen months water rebate, \$20,341.48 (with only twelve months in, as usual, it would be \$16,692.60), income used \$14,000. In the Tax levy of 1907 is included charges of \$2,724.30 for Moth work for private parties; this is not a part of the assessed tax, but does affect the amount of the excess of Receipts \$9,081.36 shown in that year; with this deducted the excess would be reduced to \$6,357.06. By reference to the Abatement and Discount Table, Schedule B., you will note a material increase in amounts during the past ten years. While the amount of Abatement given would probably be larger as the amount of the Tax Assessments increase, yet it would appear that the amounts given during the past ten years have been out of proportion. The large amounts in 1903 and 1904 would be partially accounted for by abatements on the Pranker Mill property and the Lynn Pumping Station, yet, with these out, the amounts would be large and are likely to be still further increased when the taxes for those years are finally settled. It appears to me, and I believe the Abatement table shows, that the non-collection of the taxes is in a great degree responsible for the large amount of Abatements. You will also note that the amount of overlay has never been sufficient to cover the Discounts and Abatements given except in 1907, and what they will amount to for that year can only be determined when the taxes for that year are paid. In the Miscellaneous Income, Schedule C., I would call your attention to the amount of the

Water Rebate in 1900; \$1,932.20, the amount received seems to be out of proportion with the years preceding and following it. The tax on flooded land from the city of Lynn apparently has not been paid in 1900 and 1905. In 1898 it was paid for 1895-6-7, in 1899 apparently for 1898-99; the normal amount was paid in 1901, 1902; in 1904 apparently it was paid for 1903, 1904; nothing was paid in 1905; while only the normal amount was paid in 1906. There appears to have been some Water Guarantees paid in 1891-2-3-4-5, but since that date nothing seems to have been collected. As I understand it, the Town voted some time ago instructing the Water Commissioners to require bonds as a guarantee for a certain income. Question: Has this been done, and if so why has nothing been collected? You will note that in 1899 and 1900 I have used the Excise Tax (Street Railway) but not after. The reason is that in those two years it was used as a part of the general Highway appropriation, but after that was kept as a separate fund.

Regarding the loss to the town by the defalcation of Mr. W. P. Copp, I find

The Tax of 1885 committed was	\$26,371 84
The Tax of 1886 committed was	28,378 78
The Tax of 1887 committed was	30,372 38
Total	<u>\$85,123 00</u>
Cash paid Town Treasurer	\$60,111 92
Abatements allowed	3,613 73
Tax Titles	305 28
	<u>\$64,030 93</u>
Less receipts of W. P. Copp shown and included in above	1,017 98
	<u>63,012 95</u>
	\$22,110 05
Add error in account 1901	6 00
	<u>\$22,116 05</u>
Less received from Bondsmen	15,000 00
Net loss to Town	<u>\$7,116 05</u>

In the settlement of the taxes during the past twenty years Tax Titles have been turned over to the Town by the Collector amounting to \$15,760.77, not including costs. Many of these have been redeemed, some have been released on account of poor title and others compromised. Owing to insufficient data at the time of making this report I am unable to state what loss, if any, the Town has suffered by this account. I would recommend that this account be made up and that in the future the Treasurer keep a Tax Title Account, in such manner that the balance would at all times agree with the Tax Titles held.

Respectfully submitted,

THOMAS P. PARSONS.

BOSTON, January 28, 1908.

The work of the Board of Assessors for 1907 has been performed under a very different system from what has been in vogue for all time past and the change can but appeal to the citizens as a step in the right direction.

It has been apparent for some years past that a departure in the method of conducting the affairs of this office, which must be admitted is one of the most important offices of the town, being the source of all revenue upon which the town must derive its income.

At the March Town Meeting an appropriation was voted for the employment of a clerk and a change in the manner of the Assessors' work, a sum which at the time was deemed sufficient to bring about the desired result, but it soon became apparent that the appropriation was insufficient as many unforeseen problems developed that could not fully be anticipated or provided for, with the result that many times the amount of labor was necessary to perform the work.

We can assure the citizens that the system now installed is second to none, and firmly believe that it is the best system applicable to the work of the Assessors that patience and money can provide.

It may take two or three years to develop its advantages so that the average person can recognize its benefits but to the mind of your Board it is indispensable and the change was inaugurated none too soon.

A brief outline of the system is as follows :

A complete set of cards are set up for each precinct alphabetical by streets, beginning on one side of the street and continuing to the end, then back to the other side and so on to the end embracing every statistic required of the Assessors, to wit : Name, street address, ward, precinct, date of assessment, population, poll, age, militia, occupation, residence previous May 1st, number of dogs, male or female ; number of horses, number of cows, fowl, and value of same ; also estimated value of other ratable personal property, buildings, kind and value of same ; land in acres, square feet, and value of same, etc.

Five forms of cards are used, to wit :

Form 1, color blue, for poll tax only; Form 2, color salmon, for poll and personal property only; Form 3, color buff, for poll, personal and real estate; Form 4, color pink, for resident, personal and real estate, where there is no poll and Form 5, color yellow, for non-resident, personal and real estate.

These cards are ruled so as to show all the foregoing statistics for the years 1906, 1907, 1908, 1909, 1910, and in consequence, a comparison of all these statistics for the five years mentioned will be seen at a single glance when completed.

At the conclusion of each year's work as shown by these cards, the street book of each Precinct is written up and stands out showing the totals or aggregates of all the aforementioned records, available at all future time, as a matter of record.

In the past no record whatever of many of these features has been kept in tact for future reference.

Another set of cards, an exact duplicate of the street set, is also put up alphabetically in two classes, to wit:—Resident and Non-resident, and from this set styled. "The Alphabetical Set" is written the valuation book as required by statute, and this year as well as every third consecutive year a duplicate valuation book is required to be written and furnished the Tax Commissioner at the State House.

Conveyance.

A feature has developed in our Town during the past few years that no doubt would surprise most of our citizens, that of the increase in number of property conveyances during the year, between May 1, 1906 and May 1, 1907 nearly 600 parcels were conveyed and this year from May 1, 1907 to January 1, 1908 nearly 400 parcels have been conveyed, indicating a still further increase for the current year to May 1, 1908 as a larger volume of such transfers are made in the spring months. The clerical work necessary in just this feature alone, is of considerable moment requiring as it does the changes on the several cards, the retirement of the grantors card where the whole property is conveyed and the corrections on cards where only a portion of the property

is transferred, with the making of additional cards for the purchaser or purchasers.

To show complete transactions of this kind an index of both Grantor and Grantee has been installed and any information desired can be obtained and readily found upon reference to such index; this feature alone is a new departure in the assessors' office and the value of it is apparent at a glance, for heretofore no such information was obtainable without resorting to the Registry of Deeds at Salem.

Another kind of information readily obtainable under the present system is the ability to determine the owner of any parcel of property wherever located and its assessed value by reference to the street book where formerly the value could be obtained only by first learning who it really belonged to from some other source and without the owner's name obtained outside of this office by inquiry, of some sort, no information as to its assessed value could be obtained.

Abatements.

The abatement feature of the Assessors has been very materially increased beginning with 1906 on account of the law exempting Veterans, and Soldiers' Widows from a portion of taxation. This, with other exemptions provided by law such as Widows, Poverty, Disability, etc., has become a matter of considerable proportion. Our Firemen are also exempt.

Revised Laws, Chapter 12, Section 73. A person aggrieved by the taxes assessed upon him may, within six months after the date of his tax bill, apply to the Assessors for an abatement thereof.

SECT. 74. A person shall not have an abatement, except as otherwise provided, unless he has brought in to the Assessors the list of his estate as required by Section 41. An executor, administrator or trustee after three years from the date of his appointment, or a tenant of real estate paying rent and under obligation to pay more than a moiety of the taxes thereon, may have an abatement although no such list was brought in. If such list is not filed within the time specified in the notice

required by Section 41, no part of the tax assessed upon the the personal estate shall be abated unless the applicant shows to the assessors a reasonable excuse for the delay or unless such tax exceeds by more than fifty per cent. the amount which would have been assessed upon such estate if the list had been seasonably brought in, and in such case only the excess over such 50 per cent. shall be abated. If the applicant was not required by said notice to include his real estate in said list, and has not done so, he shall, if he seeks an abatement of the tax on his real estate, file with his application a list, verified as provided in Section 43, of his real estate, with an estimate of the fair cash value of each parcel.

Personal Property.

It appears that our town has acquired the distinction of being the lowest in point of value in Personal Property tax, of any other single town within this Commonwealth.

We are informed by the Deputy Tax Commissioner that upon the basis of real estate valuation, the personal property tax of this town is less than one-half as much as the next lowest town within the State.

The Assessors find this part of their work a most difficult problem to solve, and according to the strict interpretation of the law, it is incumbent upon the Assessors to arbitrarily fix an amount, that in their judgment the citizens is worth, and liable to pay tax for, unless the citizen shall within a period, prescribed by the Assessors, at which time the Assessors can subject the party so making returns to a thorough examination by asking any questions they may deem material.

Tax Rate.

Our tax rate has been high for several years. One of the highest in the Commonwealth.

Tax rates are made higher or lower by—

1st. Higher or lower valuation of property made by the Assessors.

2nd. By higher or lower appropriations to be made by the voters of the Town.

As to the first, a revision of valuations either in whole or in part should be made occasionally. Such revision has been inaugurated.

As to the second, the appropriations for State, County and Metropolitan Taxes, Town notes, Interest and Sinking Fund cannot be reduced. The remaining appropriations, therefore, are the only ones available for reduction.

Maps and Plans.

The Assessors' office is sorely in need of additional plans of many parts of the Town and the necessity of more complete plans showing street frontages and areas of all real estate in Town is plain. Such plans would be of inestimable value in the accurate and equitable assessment of property as well as to all departments of the Town service.

If a moderate expenditure were made for this work each year the plans could be systematically completed in a very short time and would be of immense value to the Town, especially where parcels are sold by the Town for taxes.

L. G. HAWKES,
ALONZO PENNEY,
CHARLES W. AMERIGE,

Assessors of Saugus.

Report of Superintendent of Streets.

To the Board of Selectmen:

In submitting my annual report, I will make a few suggestions in the way of needed repairs for the coming year as follows:

First, that Main street be put in thorough condition.

Second, that Ballard street be finished to the Salem Turnpike.

Third, that Walnut street be graded from Pumping Station to Hawkes Hill, so called.

Fourth, I would recommend the repairing of Jefferson avenue at Lynnhurst and putting the gutters in good condition the coming season.

This work is very much needed and these are the largest to be repaired.

We are in need of a suitable place to keep our steam roller in, would recommend that some action be taken in the matter.

There has been a large amount of good work done the past season in putting the sidewalks on the main streets in good condition, no work that has been done has been so much appreciated, let the good work go on.

Our streets are in good condition generally, except those I have above named and will not need much in the way of repairs, one of our largest items will be the bridge at East Saugus this coming season as the street is to be widened and the bridge renewed.

ANTHONY HATCH,
Superintendent of Streets.

Town of Saugus.

Report of Chief of Police.

To the Honorable Board of Selectmen:

GENTLEMEN, — I have the honor of presenting to you my twelfth annual report of the Police Department for the year ending December 31, 1907.

The tables presented in this report give in detail the work done by this Department, and a careful analysis of them will show the duties delegated to the officers have been faithfully performed.

Chief of Police.

CHARLES O. THOMPSON.

Regular Officers.

Captain Roland L. Mansfield, Frank W. Joy, J. Henry Williams.

Special Officers.

Peter A. Flaherty, Edward P. Burnham, Arthur B. Mansfield, Thomas E. Berrett, William M. Penney, Justin E. Mansfield, Harry Williams, James W. Rea, George W. Parker, John C. Brierly, E. Curtis McKenney, Christopher C. Merri-
thew, Henry J. Townsend, Charles E. Davis, Timothy J. Bannon, Arthur G. Copp, Charles W. Amerige, Thomas C. Smithers, George Upham, Charles O. Popp, Joseph P. Devine, Sebina Snow.

Arrests.

The total number of arrests for the year 1907 was 242, of which 234 were males and 8 females.

The following are the Offences:

Assault, 6; assault and battery, 12; assault with a dangerous weapon, 2; adultery, 1; breaking and entering, 7; bastardy, 1; arrested on capias, 2; cruelty to animals, 10; carrying revolvers, 7; drunk, 83; disturbance on car, 2; indecent language, 2; larceny, 31; lewd and lascivious, 4; malicious mischief, 6; non-support, 6; peddling with no license, 5; tampering with fire alarm, 2; keeping children from school, 4; riding bicycle on sidewalk, 1; search warrants served, 1; stubborn child, 2; suspicion, 1; surrendered by bondsman, 1; trespassing, 7; tramps, 4; throwing stones, 1; truancy, 4; vagrants, 8; violation of Town by-laws, 13; violation of game laws, 2; violation of plumbing laws, 1; unlicensed dogs, 3.

Court Cases.

There were 382 criminal including continued cases tried in this court.

Disposed of as follows.

Appealed cases, 10; continued cases, 168; committed to Salem jail, 12; committed to Lawrence truancy school, 1; defaulted, 9; discharged, 35; filed, 67; fined and paid, 83; held for Grand Jury, 7; held for Superior Court, 4.

Miscellaneous Work.

Arrested for out of town officers, 4; complaints received and investigated, 759; committed to Danvers asylum, 2; dead bodies removed, 3; disturbances suppressed, 31; doors found open and secured, 89; dogs killed, 65; lights furnished for dangerous places, 27; lights found burning, 75; lost children restored, 7; runaway horses stopped, 7; stray teams put up, 2; windows found open, 32; responded to fire alarms, 40; calls for patrol wagon, 90.

Financial Statement.

Appropriation \$4,250 00

The sum of \$27.85 was drawn from this amount to pay bills of 1906 as the appropriation for that year was not sufficient to pay expenses.

EXPENDITURES.

Amount paid on bills of 1906	\$27 85
C. O. Thompson, salary for 1907	882 50
R. L. Mansfield, salary	862 50
F. W. Joy, salary	761 20
J. H. Williams, salary	753 60
P. A. Flaherty, salary	47 00
E. P. Burnham, salary	24 00
C. E. Torry, salary	27 25
A. B. Mansfield, salary	99 25
T. E. Barrett, salary	40 00
G. Upham, salary	52 24
W. E. Penney, salary	24 50
T. J. Bannon, salary	24 00
J. Devine, salary	8 00
George W. Felton, supplies	11 82
Dr. N. L. Barrey	10 00
Sampson & Allen, supplies	16 97
William Read & Sons, supplies	17 70
William F. Paul, labor	50
H. E. Brier, supplies	3 50
Eugene Stevens, horse hire	4 75
Henry Ward, iron work	1 10
J. P. Lewis, supplies	1 25
Elmer E. Bray, pung and supplies	72 00
Clarence Coates, printing	3 00
Oak Hall Co., police buttons	2 25
J. F. Pratt, labor on telephones	4 05

Amount carried forward,

\$3,782 78

<i>Amount brought forward,</i>	\$3,782 78
Norfolk Press, printing	2 75
F. W. Berry & Co., books	6 18
Peter Gray & Sons, lanterns	9 00
J. W. Harding, supplies	70
Henry Williams, Police work	2 50
New England Telephone Co.	40 06
H. D. Bisbee	17 75
L. S. Blood, photographing	2 00
Dr. Parcher	21 00
William A. Bent	2 00
H. O. Pratt	4 00
H. A. Turner	4 50
Mitchell Manufacturing Co., badges	3 00
Dr. Perkins	1 50
C. O. Thompson, horse hire	282 15
Welt & Co., labor	5 00
J. F. McCarty, printing	7 50
Gilson & Hatch, supplies	60
J. A. Halliday, advertisement	3 00
L. M. Cummings	1 00
R. Masstrangolo, helmets and belts	13 90
Expenses on committing prisoners	10 75
Stamps and postal cards	4 00
Summonses	1 00
Car fares for year 1907	9 00
Expense on Neal case	1 00
Expense on Lewellyn case	1 00
Expense on Knight case	2 00
Expense on Coffin case	1 75
Expense three trips to Cambridge	3 00
Expense Everett, copy of marriage certificate	1 50
	\$4,247 87

The total amount of fines paid during the year was \$531

Recommendation.

I would recommend that the sum of \$4,250 be appropriated for police service for the year of 1908.

Conclusion.

In submitting my annual report, I desire to extend my thanks to the honorable Board of Selectmen for the support given me. Also Judge William E. Ludden and all others who have assisted me in the performance of my duties.

I wish also to tender to the officers both regular and special, my deep appreciation for their loyal co-operation.

Respectfully submitted,

CHARLES O. THOMPSON,

Chief of Police.

Report of Board of Health.

The Board of Health respectfully submits its annual report for the year 1907.

The Board was organized as follows: George W. Gale, M. D., Chairman; William F. Belcher, Secretary; Benjamin F. Robinson, Health Officer.

Regular meetings of the Board are held at the Town Hall on the first Monday of each month at 8 o'clock P. M.

Complaints of various kinds were made to the Board, and all were investigated without delay, and where any nuisance was found to exist it was promptly ordered abated, and the order was complied with in every case.

We have had a large number of contagious diseases this year to contend with and have carefully watched them to the best of our ability. We have had 31 cases of diphtheria, 17 cases of scarlet fever and 2 cases of tuberculosis reported.

We would still call the attention of all owners of real estate to the necessity of having their vaults and cesspools kept in a sanitary condition and cleaned out once a year at least as required by law. Many vaults and cesspools are used until they run out upon the ground, thereby creating a nuisance for themselves and their neighbors. We would also urge the necessity of using an iron cover to all cesspools, the same being once done is done forever, while a wooden top has to be renewed every six or seven years besides the liability of a horse or wagon breaking through it. We would also urge upon the citizens a more thorough collection of ashes and swill, it being no more work to them to put it in a proper receptacle and have it taken away than to throw it out in the yard to rot and breed mosquitoes and flies, to say nothing of

the improved condition of their premises. We find that once a household has the same removed they do not wish to go back to the old way.

The attention of the citizens and physicians is called to the following State Law which the Board desires, for the purpose of securing the widest knowledge of the existing law relating to the notification of contagious diseases, to call particular attention to Sections 49 and 50, of Chapter 75 of the Revised Laws, as amended by Chapter 251 of the Acts of the Legislature of 1905. The amended sections read as follows :

SECTION 49. A householder who knows that a person in his family or house is sick of smallpox, diphtheria, scarlet fever or any other infectious or contagious disease dangerous to the public health shall forthwith give notice thereof to the Board of Health of the city or town in which he dwells. Upon the death, recovery or removal of such person, the householder shall disinfect to the satisfaction of the Board such rooms of his house and articles therein as, in the opinion of the Board have been exposed to infection or contagion. Should one or both eyes of an infant become inflamed, swollen and red, and show an unnatural discharge at any time within two weeks after its birth, it shall be the duty of the nurse, relative or other attendant having charge of such infant to report in writing within six hours thereafter, to the Board of Health of the city or town in which the parents of the infant reside, the fact that such inflammation, swelling and redness of the eyes and unnatural discharge exist. On receipt of such report, or of notice of the same symptoms given by a physician as provided by the following section, the Board of Health shall take such immediate action as it may deem necessary in order that blindness may be prevented. Whoever violates the provisions of this section shall be punished by a fine of not more than one hundred dollars.

SECT. 50. If a physician knows that a person whom he is called to visit is infected with smallpox, diphtheria, scarlet fever or any other disease dangerous to the public health, or if one or both eyes of an infant whom or whose mother he is called to visit become inflamed, swollen and red, and show an unnatural

discharge within two weeks after the birth of such infant, he shall immediately give notice thereof in writing over his own signature to the Selectmen or Board of Health of the town; and if he refuses or neglects to give such notice, he shall forfeit not less than fifty nor more than two hundred dollars for each offence.

GEO. W. GALE, M, D.

WILLIAM F. BELCHER, *Secretary*.

BENJAMIN F. ROBINSON.

REPORT OF

Inspection of Plumbing.

SAUGUS, MASS., Jan 1, 1908.

Board of Health:

GENTLEMEN, — In accordance with the requirements of Chapter No. 103 of the Revised Laws of Massachusetts of the supervision of plumbing, I herewith submit my third report for the year ending Dec. 31, 1907.

The number of inspections made during the year, together with the number of different inspections will be found in the table hereunto annexed.

Total number of inspections	.	.	.	.	.	.	186
Permits issued	.	.	.	.	.	.	91
Permits refused	.	.	.	.	.	.	1
Cesspools inspected	.	.	.	.	.	.	95
Complaints of violation of plumbing ordinance	.	.	.	.	.	.	2
Complaints investigated	.	.	.	.	.	.	2
Violation of plumbing ordinance	.	.	.	.	.	.	2
Miscellaneous calls	.	.	.	.	.	.	18

Respectfully submitted,

THOMAS C. SUTHERST,

Plumbing Inspector.

Report of the Water Commissioners.

The town's water system ought always to be a subject of fruitful discussion and should never fail to be of great general interest because its source of supply, quality, and plans for its enlargement and development are of primary importance to the health, convenience and safety of the community, in which all our people are vitally concerned.

As is well known the City of Lynn furnishes us with water under a contract originally made in 1878, and which has been renewed from time to time since, as occasion required. Saugus, is, therefore, very much interested in the Lynn water works, their establishment in the first place, their status at the present time, and their prospects for the future. This is especially true because of the fact that a part of the present source of supply is located in Saugus, and, for that reason, as well as for several others which are patent to our citizens, we are more than perfunctorily desirous that all our water used for domestic purposes shall be as pure and undefiled as is possible under the circumstances. Hence any scheme of improvement of the Lynn water works is of the utmost concern to our town and its inhabitants.

The present source of supply consists of four storage reservoirs which have been constructed on small brooks in the westerly portion of Lynn and Saugus, known as Breed's, Birch, Walden and Hawkes' ponds; and the Saugus river, water from which is taken at a point in Montrose in the town of Lynnfield. Water from Breed's pond was first used for domestic purposes in 1871 and at about the time the contract with Saugus was made, in 1878, the dam was raised 3 feet; the construction of Birch pond, a large area of which is located in Saugus, was begun in 1873; Walden pond, one half of whose area is within

the confines of our town, was utilized in 1889; Hawkes' pond, a greater part of which is also in our territory, in 1896; in 1883 the so-called tunnel and canal from Howlett's pond on the Saugus river to Birch pond was inaugurated; and in 1897 a canal for the purpose of taking water from the Saugus river at Montrose about two miles above Howlett's pond was erected.

Competent civil engineers, as well as able chemists, give it as their opinion that the Saugus river below Howlett's pond is badly polluted by sewage, chiefly from the towns of Wakefield and Reading, but above Montrose, where the river is tapped, frequent analytical tests which have been made show the supply to be suitable for domestic purposes at certain periods of the year. Where the river flows for a long distance through great areas of swamps the water is found to be very highly colored from contact with organic matter, and the source of supply from the Saugus river from Montrose down the stream is of poor quality and unfit for domestic use, both on account of the quantity of organic matter and the high color, and on account of the evidence of sewage pollution.

William S. Johnson, an eminent civil engineer, who has only recently completed an exhaustive and able examination of the Lynn Water Works and its accessories, gives it as his opinion that the water flowing in the Saugus river is of such poor quality for so many reasons that it is not feasible to make good water of it, except by filtration or storage, although he says its quality can be much improved by the ditching of swamps, the prevention of the direct discharge of sewage into its tributary streams and by the sanitary control of the watershed. We are reliably informed by chemists that analytical tests have demonstrated precisely the same thing.

At certain seasons of the year the water of the Saugus river above Montrose is believed to be unfit for use and at such times it is not drawn upon. Thus we find ourselves in the following position regarding the Saugus river supply. Below Montrose under existing conditions the water of the stream is never good for domestic purposes. Above Montrose its quality is good at times and at such intervals it is utilized.

Chemists with whom we have talked about this matter give it as their professional opinion that the waters of the Saugus river could be made available at all times, above as well as below Montrose, if some adequate system of storage could be adopted and maintained. Storage is the best known natural method of purification and if it could be adopted in connection with the Saugus river supply this would certainly seem to be worthy of very careful consideration with the several schemes now being discussed by the proper authorities who are arranging for the future development and enlargement of the Lynn supply.

Engineer Johnson says that there are two methods of filtration which might be adopted: the first known as slow sand filtration, which consists in passing water through a bed of sand, and the second known as mechanical filtration, which requires the use of chemicals and sedimentation, after which the water is passed through small filters at a rate of approximately 125,000,000 gallons per acre per day and thence to consumers.

Lynn is now attempting to solve this important problem, important to herself as well as to Saugus, our town being to all intents and purposes an integral part of Lynn's water system, Saugus laying and maintaining the pipes in Saugus and Lynn collecting the rates and refunding us 50 per cent of the same. Whether Lynn, through its duly constituted authorities, ultimately decides upon storage, filtration, or going into the metropolitan water district, Saugus must needs go with her under present physical conditions, which are likely to remain as now unless the Town builds a water system of its own, which is not at all within the bounds of probability, as the existing mutually advantageous arrangement with Lynn will undoubtedly be continued indefinitely.

What Saugus wants and must have is the purest water possible. If it is to be obtained by storage, let us have that; if by filtration, so be it; if as a part of the metropolitan water system, all right. What our citizens desire above all things is pure water, in sufficient quantities, and at a reasonable cost, let the source be where it may. If the present source is to be amplified and expanded for the needs of the future, let its vast watershed be

scrupulously guarded, its swamps drained, pollution kept from every avenue of supply, the bottoms of its ponds improved, and all other precautionary measures taken to give the present generation and others which are to follow the best possible water under the best possible conditions.

The Year's Operations.

The membership of our board up to the annual election in March 1907, consisted of G. Clarence Parcher, George W. Caswell, and Horace H. Atherton. By the retirement of Mr. Caswell and the election of Robert T. Allen, the new board was made ready for organization, which was effected on March 18th, by the choice of Dr. Parcher as chairman and Mr. Atherton as secretary.

Regular meetings for the transacation of business have been held on the first Monday of each month and more frequent sessions have been held when the public business seemed to warrant. No choice of a Superintendent was made until the special meeting of July 1, when Mr. George W. Caswell was chosen.

As in former years applications for an extension of the service have been greatly in excess of our ability to favorably respond, yet so far as our judgment and discretion permitted, we have endeavored to apply the appropriation to sections where it appeared to us the most merit and prospective money return were apparent. We have on file many applications upon which we shall be called upon to act when the pipe-laying season opens, which if favorably passed upon by us would involve a larger expenditure of money than your board feels justified in asking for the current municipal year.

The annual appropriation for our use during the year was \$1,000 for the specific purpose of maintenance. Of this amount there has been expended for that purpose the sum of \$500.34, the balance of \$499.66 reverting to the Treasury. The loan of \$5,000, authorized at a subsequent town meeting, as well as a balance of \$19.71 from Dec. 31st, 1906, has been devoted to the extension of the service by an expenditure of \$3,811.18, leaving an unexpended balance of \$1,208.53 to be

carried forward for extension projects during the next municipal year.

The details of the expenditure of the maintenance appropriation and the loan of \$5,000 will be found in the report of the Auditor.

For data covering localities where the service has been extended from time to time and repairs for maintenance made, you are respectfully referred to the report of the Superintendent, which is appended hereto and marked Exhibit A. Exhibit B. contains a list of the number of services in town; Exhibit C. gives a tabulated statement of pipes which have been laid in Saugus since 1887; and Exhibit D. is a copy of the existing contract between the City of Lynn and the Town of Saugus, the terms of which cannot fail to be of interest to every citizen of the Town.

The rebate from the City of Lynn under the contract aforesaid for the year 1907 was \$6,842.83.

By reference to the Appraisers' Report of 1906 the value of your water plant is estimated to be \$130,000, to which should be added the sum expended for extensions of service during the current year, thus reaching approximately \$135,000, which we regard as one of the most valuable assets of the Town when considered in conjunction with our favorable contract for water with the City of Lynn.

The Town's liability on water loans is already set forth in the Treasurer's Report, to which reference can be had for details.

In accordance with the requirements of the Town By-Laws the Water Board appeared before the Finance Committee in January and urged their endorsement of our request for an appropriation of \$3,000 for extensions of the service and \$500 for maintenance.

Respectfully submitted,

GEORGE C. PARCER,
H. H. ATHERTON,
ROBERT T. ALLEN,

Water Commissioners.

February 1, 1908.

Exhibit D. (Copy.)

Contract between the City of Lynn and the Town of Saugus.

This agreement made to take effect the first day of June, 1906, between the City of Lynn, in the County of Essex, of the first part, by Charles Neal Barney, Mayor, thereto authorized by vote of the City Council, approved the 26th day of June, 1906, and the Town of Saugus, in said county of the second part, by its Board of Selectmen, thereto duly authorized by vote of said Town passed in the Town meeting assembled, on the 27th day of March, 1906.

WITNESSETH:

1. That the said parties cancel any and all agreements heretofore made between the City of Lynn and the second party relating to rates or rents for the use of water supplied within the territory of the second party.

2. That the said first party shall furnish to the second party water for its inhabitants from the Public Water Works of the City of Lynn.

3. That the said second party shall, at its own expense, lay and maintain all the pipes, hydrants, and stop-gates necessary for conveying the water from the pipes laid by the first party, and distributing the water within the limits of the territory of the second party.

4. That for all the water furnished by the said first party to and used by the second party, or by any person within the territory of the second party, the said first party shall, at its own expense, collect water rents at the same rates and prices, and under the same rules and regulations as are now, or may hereafter be established by the said first party, for the use of water in the City of Lynn; provided that the price to be collected for fire hydrants shall be twenty-eight dollars per year for each three hundred and fifty inhabitants, as shown by the semi-decennial census next preceding; in computing the amount the fraction shall not be taken into account, unless it exceeds one-half, when the full price shall be charged; said hydrants to be as many as said second party may determine, but not to be used

for any purpose whatever except for fire purposes; and that the second party shall not be held responsible in any case for the payment of said water rates, except for water used by hydrants public fountains, and other Town purposes.

5. That the said first party shall pay to the second party, in the months of June and December of each year, a rebate of fifty per cent of the rates collected for the use of water within the territory of the second party; provided that in no consecutive five years shall the rebate amount to more than six per cent. per annum of the total cost of pipes, hydrants, stop-gates and services laid by the party of the second part.

6. That the said second party may raise the water rates within its territory above those charged by the said City of Lynn; and, in case the water-rates shall be so raised, the first party may retain to its own use five per cent. of the excess of said rates over the rates established by the said City of Lynn, and pay over the balance of said excess to the second party, as hereinbefore provided.

7. That the said first party shall have care of all ordinary repairs of pipes, and the actual costs of such repairs to be paid by the second party; provided that all extension of pipes is to be done by the second party; but nothing in this clause shall prevent the second party from making its own repairs or putting in its own service pipes, if at any time they shall deem it for the best interest of the Town of Saugus so to do.

8. That the said first party may, at its own expense, take such measures and use such machines and apparatus for the prevention of waste within the territory of the second party as shall be taken and used in the City of Lynn.

9. That the said second party shall, at its own expense, provide suitable person in the villages of East Saugus, Saugus Center, and Clifftondale, and in North Saugus (if the pipes should be extended to that village), whose duty it shall be to shut off water in case of a leak in the main pipes.

10. That the said first party is in no event to be liable for damages in consequence of a deficient water supply, nor for a suspension in the supply to said residents, caused by any defects

in the water works of said first party; nor for a stoppage in the flow of water for the purpose of making reasonable repairs and alterations in said works; nor any damages caused by defects in the highway by reason of the obligations assumed by said first party under this contract; nor for any of its acts under the same.

11. That the second party shall pass and enact the like rules and regulations as to the use of water within its territory as are now or may hereafter be in force in the City of Lynn, with like penalties for their violation; provided such rules and regulations shall not conflict with the laws of the Commonwealth.

12. That the said second party shall furnish a map of its territory to the first party, and from time to time make prompt additions thereto, so as to show all streets in which pipes are laid, and the location of all pipes, hydrants and stop gates.

13. This agreement shall continue in force for the term of five years from the first day of June, 1906.

IN WITNESS WHEREOF, the parties to these presents have hereunto set their hands and seals this 27th day of July, 1906.

REPORT OF

Engineers of Fire Department

To The Honorable Board of Selectmen.

GENTLEMEN,—It becomes our duty to submit to you our annual report for the year ending December 31, 1907. The report will be found to contain statements, giving the number of men in the department, a record of all fires and alarms which have occurred during the year, with the names of the owners and occupants, the loss and insurance as near as could be ascertained, also an inventory of all property of the department.

The department consists of Chief Engineer, two Assistant Engineers, 40 regular men, 8 call men, Superintendent of Fire Alarms, 3 hose wagons, 1 hook and ladder truck.

Apparatus.

The apparatus is in fairly good condition with the exception of the hook and ladder, which needs to be painted. We recommend the purchase of two pairs of horses and a chemical engine.

Hose.

There are 7,950 feet of 2½-inch cotton hose, rubber lined, classified as follows: First quality 2,000 feet, second quality 4,200 feet, damaged hose 1,750 feet.

We do not recommend the purchase of any hose, as the supply seems ample for the present. We recommend the repairing of the damaged hose which can be done at a small expense.

Fire Alarm System.

The fire alarm system has been given a thorough overhauling and at the present time is in the best of condition.

Water Supply.

There are 178 hydrants in Town which have been kept in good condition under the care of the Water Board. The water supply, at times, has been very poor.

Fires and Alarms.

There have been during the year, 40 bell alarms, 8 still alarms and two telephone calls, 4 second alarms, an increase over last year of 8 alarms.

The heaviest loss by fire occurred at East Saugus, which threatened to wipe out that whole section of the town.

Conclusion.

In conclusion, we desire to express our appreciation of the officers and members of the several companies of the department for the faithful manner in which they have performed the arduous and dangerous duties.

We desire to tender our sincere thanks to The Honorable Board of Selectmen, for interest manifested and support given to the department.

Respectfully submitted,

JOHN L. WEBER, *Chief.*

THOMAS E. BERRETT, *First Assist.*

CHARLES I. HITCHINGS, *Second Assist.*

Board of Engineers.

Saugus Centre Hose House.

Located on Woodbury avenue, Saugus Centre, a two-way two story frame building.

1 hose wagon, 1 hook and ladder, carrying 96 feet of ladder, 1 sets of double harness, 4 pair of blankets, 1,950 feet of hose, 450 feet damaged hose, 3 axes, 2 bars, 7 lanterns, 1 life net, 4 pony chemicals, 3 nozzles, 2 hydrant wrenches, 2 hose lighters, 2 hydrant gates, 13 spanners, 7 belts, 12 canvas coats, 8 rubber coats, 1 life gun and equipments, 1 pair wire cutters, 2 hose menders, 1 door opener.

Cliftondale Hose House.

Located on Lincoln avenue, a one-way, two story brick building.

1 hose wagon, 1 set double harness, 1 ladder dog, 2 wrenches, 2 hydrant gates, 1 crow-bar, 7 hose supporters, 4 spanners, 4 belts, 2,250 feet hose, 750 feet damaged hose, 1 25-ft. roof ladder, 1 20-ft. extension ladder, 1 pair horse blankets, 3 rubber coats, 5 canvas coats, 1 life net, 4 pony chemicals, 3 nozzles, 2 lanterns, 1 axe, 1 plaster hook.

East Saugus Hose House.

Located on Lincoln avenue, a two-way, two story frame building:

1 hose wagon, 1 set double harness, 2,000 feet of hose, 550 feet damaged hose, 1 axe, 1 plaster hook, 2 lanterns, 3 hydrant gates, 2 hydrant wrenches, 6 spanners, 5 belts, 6 rubber coats, 6 canvas coats, 2 ladder dogs, 1 hose lighter, 1 life net, 5 nozzles, 3 pony chemicals, 1 45-ft. extension ladder, 1 15-ft. extension ladder, 1 18-ft. ladder (roof), 2 horse blankets, 50 feet rope.

Fire Record for Year 1907.

January 20. Box 45, 2.30 A. M., two alarms. Barn and hen house owned by James Gillon. Damage to building \$500. Loss on contents \$150. Total insurance paid \$500.

January 23. Box 21, 12.45 A. M. Dwelling owned by Chapman Estate, occupied by George D. Cobb. Damage to building \$1,025. Loss on contents \$285. Total insurance paid \$1,310.

February 13. Box 36, 2.30 P. M. Dwelling owned by Natick Savings Bank, occupied by Peter Beatons. No damage.

March 20. 10.30 A. M. Chimney fire at James Maxwille. No damage.

March 21. Box 21. Grass fire.

March 30. Box 125. Grass fire.

March 30. Box 124. Grass fire.

April 6. Boxes 215, 31, 31, 12 at 12.45 A. M. Masonic building. Damage \$675. E. J. Caverly & Co., used as grocery store, loss on building \$50. Hervey Upham, bakeshop, damage to building \$35.50. Dwelling occupied by Mrs. S. A. Freeman, damage to building and contents \$2,000. Boat Club owned by Clarence Coater, damage \$208. Spice mill owned by George W. Gould, total loss \$14,000. Covered by insurance. Hose house owned by the Town of Saugus, damage to building \$450. Covered by insurance.

April 7. Box 43, 1.30 P. M. Grass fire at Lynnhurst.

April 15. Box 45. Woods fire at Oaklandvale.

April 15. Box 15, 9.15 P. M. False alarm.

April 15. Box 18, 9.30, P. M. False alarm.

April 15. Box 23, 10 P. M. False alarm.

April 27. Box 126, 2.07 P. M. Woods fire.

June 20. Box 18, 9.20 P. M. Pumping station owned by Town of Revere. Unoccupied. Loss on building \$50. Uninsured.

July 4. Box 124, 2.30 A. M. False alarm.

July 4. Box 25, 11.45 P. M. Dwelling owned by Maurice F. Cunningham, unoccupied. Loss on building \$275. Covered by insurance.

July 9. Box 31, 2.30 P. M. Grass fire.

August 1. Box 24, 8.20 P. M. Dwelling owned by Mrs. Doranger, occupied by same party. No damage.

August 11. Box 123, 2.40 P. M. Woods fire.

August 19. Box 26, 3.30 P. M. Woods fire.

August 27. Box 37, 2.45 P. M. Woods fire.

August 28. Box 37, 1.45 P. M. Woods fire.

August 29. Box 23, two alarms. Fire in Revere.

September 13. Box 42, 9.30 P. M. Barn owned by M. Orr. Loss building \$500; Insurance paid \$200.

September 15. Box 126, 3.45 P. M. Dwelling owned by Marion Scolper and occupied by same. Damage \$25.

September 20. Box 18, 10.50 P. M. False alarm.

September 30. Box 41, 10.45 P. M. Automobile on fire; total loss.

October 14. Box 24, 8.20 P. M. Dwelling owned and occupied by Daniel Flynn. Loss on building \$75; loss on contents \$75; total insurance paid \$150.

October 28. Box 21, 4.50 A. M. Building owed by Marion Mooney, occupied by B. M. Reed. Loss on building \$600; loss on contents \$200; total insurance paid \$800.

October 28. Box 31, 9.30 A. M. One story bake shop owned and occupied by Mary J. Upham. Loss on building \$75; loss on contents \$75; total insurance \$150.

October 31. Box 26, 1.25 P. M. Brush fire on Morton ave.

December 8. Box 21, 7.50 A. M. Residence owned and occupied by John H. Parker. Chimney fire; no damage.

December 20. Box 21, 12.50 P. M. Dwelling owned and occupied by Ida Hatch. Chimney fire. Loss on building \$20.

TWENTIETH ANNUAL REPORT
OF THE
Trustees of the Public Library.

In submitting their annual report the trustees regret to say that their prayers for more room and less crowded quarters have not been answered during the year that has passed and none of the embarrassments have been lessened. Only about sixty square feet of floor space is available for the public. The book stacks are top heavy with books that should be placed elsewhere. The usefulness of the library is greatly impaired by this condition of affairs.

Not quite as many books have been purchased during the past year as in some previous years owing to a smaller library appropriation.

The delivery of books to the outlying parts of the Town was discontinued last April because of the small number of books delivered in that manner, the small appropriation and the fact that most of the patrons from those parts preferred to come directly to the library for the books.

As in a majority of town libraries the percentage of works of fiction loaned outranks all others. Care is taken in the selection of works of fiction.

We would urge upon parents the importance of keeping a careful supervision over the reading matter of their children. A certain proportion of solid reading should be required of them

with reasonable regard to their age and capacity. An abundance of books may be found in the library in the departments of history, biography and popular science, eminently suited to supplement the education our children are receiving in the public schools.

About twenty exhibits of pictures from the Library Art Club have been received during the year, all of which have been very interesting and instructive. In connection with the exhibit of the Hiawatha pictures, readings from the poem were given.

The usual gifts from the Government at Washington including a large map of the United States, which cannot be used owing to lack of space in which to hang it, also from this Commonwealth were received all of which are interesting and valuable, and with better facilities these gifts would be available to the general public. In our crowded condition not much use can be made of them.

Our grateful acknowledgments are due to the following persons from whom donations of books and pamphlets have been received during the year: N. M. Hawkes of Lynn for a handsomely bound and beautifully illustrated copy of "The Great Woods of Lynn;" Mrs. L. Bradish of Boston, for a copy of Science and Health; Mr. Clarence Coates for two interesting books.

Mrs. Fred C. Cheever, Mrs. Kate Foster, Miss Mary Thayer and Miss Emma E. Newhall for magazines.

A collection of Indian arrow heads, found in Saugus and Stoneham, have been purchased; these are mounted on card board and labeled and have attracted a good deal of attention. Mr. Charles Walker has presented two shoemakers polishing stones, found on what is called the Neck. Mr. Fred Tirrell has presented some good specimens of dendrite rock. Bertram Nickerson gave an alligator's tooth. Our collection of curios, birds, shells, etc., seems to be much appreciated by visitors, and patrons of the library.

In closing our report we recommend an appropriation of \$800 and an amount equal to the proceeds of the dog tax for the ensuing year.

Respectfully submitted,

JAMES R. HUGHES,
GEORGE A. LEAROYD,

Report of Cemetery Commissioners.

We have, by using the strictest economy, managed to get through the year 1907 on our appropriation of \$2,400, but in view of the fact that we have got to do a lot of work the coming year in order to get what few lots we have in condition to sell we do not see how we can do so unless we are allowed at least \$200 more this year to work with, and we would recommend that the appropriation this year be \$2,600 (twenty-six hundred dollars). This last year, as you will see by our Superintendent's Report, we have turned back to the Town the sum of \$2,236.25. This amount together with the amount of \$462.65, bills outstanding Dec. 31, makes the total amount of business done \$2,698.90; deducting \$597.25 received for sale of land and the net amount of business was \$2,101.65, this amount deducted from the appropriation of \$2,400, leaves \$298.35, actual amount it has cost to run our department for 1907.

HERBERT B. NEWHALL,

HERBERT O. PRATT,

WILLIAM F. BELCHER,

Sinking Fund Commissioner.

REPORT OF

Inspector of Cattle and Milk.

I have inspected at slaughter house three beef cattle and one hundred and forty-six hogs, five of the hogs being unsalable for food were disposed of by rendering.

In making the annual inspection, I inspected eight hundred and eighty-six head of cattle and one hundred and fifty-three hogs all of which were in good condition.

I have delivered twenty-nine milk licenses.

Respectfully,

A. W. SAWYER.

Overseers' orders, Town home . . .	821 50
Overseers' incidentals	35 00
	\$3,111 50
Due from state, cities and towns . . .	469 81
	\$2,641 69

Total partially supported during the year 116; fully supported 7, 6 in Town Home and 1 in private house. Increase in personal property at the Home, \$497.45.

Your Board of Overseers of this department was very fortunate, on the 1st of April last when Mr. Burnham retired from the Wardenship of the Town Home, by securing the services of Carl F. Koch, a successful farmer, who had resided in the Town over eleven years, as Warden of the Home, and also, his estimable and capable wife as Matron, which was a guarantee that the Home would be well managed, and with fair conditions, successful, which has proved to be the case. The house, stables and out-buildings are kept in excellent condition and show the care and labor expended.

We recommend that the sum of \$2,800 be appropriated for use of the Board for the ensuing year.

JAMES A. HALLIDAY,
GEORGE H. AMES,
CHARLES W. BAILEY,

Overseers of the Poor.

SPECIAL APPROPRIATION FOR REPAIRS.

March, 1907, was	.	.	.	\$400 00
Amount expended	.	.	.	398 66
Balance unexpended	.	.	.	\$1 34

(For detail of expenditures under the special appropriation for repairs see report of Auditor.)

Report of School Committee.

The school Committee welcomes again the opportunity to report to the citizens of the Town. Entrusted as we are with the expenditure of nearly one-third of the entire tax levy, and placed in charge of the institutions, to support which almost one-half of all the town's appropriations are made, we have frequent occasion to wish that it were possible more frequently than once a year to lay the problems of our school system before the people of the Town that we might impress upon them the importance of some of the matters with which we must deal and might obtain their judgment upon the various matters of school policy. Co-operation between parents, teachers and committee is absolutely essential to best results from the Town's annual investment in this department and such unity of effort can be obtained only if all are familiar with the aims and methods of the Town's educational work. The committee has much reason, however, to be grateful for the unquestioning faith with which successive Town meetings grant every appropriation for which it has asked, and for the friendly spirit with which every one of its actions during each year are received.

Two Serious Matters.

The two most serious matters to which attention should be called are the increasing difficulty experienced each year in obtaining and holding desirable teachers, and the rapid approach of the time when in two precincts of the Town additional school accommodations must be afforded. A year ago we stated that an immediate increase in the salaries of the teachers of the various primary and grammar grades from the then scale of \$450 a year

to \$500 per year should be made, and asked for sufficient appropriation to permit such an increase. That appropriation was granted and no Saugus teacher now receives less than \$500 per year except the teacher at Oaklandvale whose whole number of pupils is always small, those teachers who have been less than one year in our employ, and the teacher of music who gives the Town only part of her time. The committee does not ask for any increase of its appropriation for salary advances this year, as none such are contemplated, except for the principal of the High School and certain of his assistants, and for the janitor of the High School building. The satisfactory work which each of these is doing calls for better pay. The estimate of the appropriation required for the present school year, which is appended to this report, is larger than that of last year only because experience has shown us that it never is safe to plan to open less than two additional school rooms each year.

Hard to Get Teachers.

Even for a salary of \$500 per year, however, the committee is not finding it much easier to get or to hold teachers who are satisfactory than before the increase of \$50 per year was granted. To be sure, the present Saugus scale is higher, if we are correctly informed, than that paid in any city of Maine even including Portland, and in many of the other New England cities, and it might be supposed that a considerable number of good teachers could be induced to come here from those places. Such has not proven to be the case. Teachers in the places mentioned declare that although nominally the wages paid here are more attractive than those they now receive, the cost of living in any place near Boston is so much greater than that in other parts that they are better off to remain at their present posts. Some do come this way, drawn by the advantages of living near Boston, but the other towns and cities in this neighborhood which pay more than \$500 per year take so many of them that few are left from whom we can choose. The amount of time which a superintendent of schools has to devote to hunting for teachers, unless the pay he can offer is unusually good,

would surprise one not familiar with the prevailing conditions. There are so many more openings for women in business offices and factories than there used to be, and at wages fully as good as those of the average school teacher, that few high school graduates are willing to fit themselves for school work. They very naturally feel that if they can do as well in employments which do not demand of one the sacrifice of time and means necessary to go to normal school or college, then such sacrifice is not worth while. That the town of Saugus does obtain, in spite of all these difficulties, so good a corps of teachers can be attributed only to a combination of good fortune and a hunt for teachers all over this part of the country conducted by the committee through its agent, the superintendent of schools.

Equally Hard to Hold Them.

Almost as perplexing as the problem of getting good teachers is that of retaining them after they have once entered our service. The existence of teachers' agencies has made it comparatively easy for superintendents of schools all about Boston to keep well posted on the fitness of our teachers, and every year anywhere from eight to twelve of our corps, that is, about one-third of the whole number, are taken away from us by offers of better pay. Especially annoying does the committee find it to have a teacher resign in the middle of the school year, for to find a good successor is, as anyone can realize, extremely difficult at that time. Nevertheless, resignations because of opportunity to do better elsewhere frequently do occur at such times, three being offered during a single month of this present school year. The policy of the committee has been never to discharge a teacher during a school year except her work be exceptionally unsatisfactory, but we have never refused a teacher the privilege of leaving, provided she has given us, prior to leaving, four weeks' notice of her intention to go. One sided in its nature as this arrangement is, and not entirely fair to the scholars, because it is apt at any time to require them to become accustomed to a brand new teacher just as they have adjusted themselves to an earlier one, we have been assured that this same plan prevails

almost everywhere and that good teachers would generally refuse to come to a town where they were denied the right to better their condition at any time. We have even heard it declared by those who have some information on the subject, that one reason why we have so good teachers as are now in our service is the knowledge they have that for so many who have been with us in the past, an employment in Saugus schools has meant that they were constantly watched by superintendents nearby and were soon given an opportunity to go to a more remunerative post. The committee has, however, decided to try for the coming year the plan of binding each teacher by contract to remain throughout the entire school year.

Crowding at Cliftdale and East Saugus.

Some paragraphs back, reference was made to the approach of the time when in two precincts additional school accommodations would be necessary. The two precincts are Cliftdale and East Saugus. At Saugus Centre, the erection of the High School building and the removal to it of the High School pupils and those of the ninth grade has not only left the four rooms in the old wooden buildings vacant, but has relieved the Roby School building so that it will be adequate for all the demands of this present year. For coming years the wooden buildings will provide room enough. But at Cliftdale, there are no vacant rooms, and in few cases is the number in any room so small as to leave much chance for expansion. When the Town built the new building on Lincoln avenue two years ago, every one believed that it, with the proposed new school at Pleasant Hills for primary grades, would provide for the growth of Cliftdale for some years to come. The decision of the Town not to build the Pleasant Hills school, with which decision the committee finds no fault, and the necessity of using the new Lincoln Avenue school almost entirely for East Saugus pupils, has deprived Cliftdale of any considerable accommodation from either of these sources. One room for lower grades can be provided by removing the ninth grade of Cliftdale, now in the Felton building, to be the new High School building where the ninth

grades of East Saugus and the Centre already are, but just how further relief to Clifftondale can be given after another year is not apparent.

The Growth of East Saugus.

The growth of the school population at East Saugus in the last few years has been most surprising to your committee. In 1897, there were in the Chestnut Street building 167 pupils, in 1898, 197. The following year this number had declined to 164, in 1900 to 152, and it was not until 1904 that there once more were as many scholars at East Saugus as in 1898. The Town therefore had no reason for believing that any considerable additional school rooms would be needed at East Saugus for years to come. It expected that the removal of the ninth grade to the Centre and the use of the new Lincoln Avenue building jointly with Clifftondale would be quite adequate present provision for future needs. The considerable influx of new residents at East Saugus, however, has caused the school population of that end of the Town to increase more rapidly than had been supposed was possible. In September 1905, 250 scholars in all were enrolled at the Chestnut Street building, as against 198 pupils at the same time the year before. To-day, with no ninth grade in East Saugus at all, both the Chestnut Street building and the new Lincoln Avenue building are filled and in both cases practically entirely with pupils from the East Saugus precinct. As a matter of fact, out of 133 scholars in the new Lincoln Avenue building, 126 are from East Saugus. The whole number of East Saugus pupils attending grammar schools to-day, including the ninth grade, cannot be less than 300.

What can be done in that end of the town if many more families, having several children each, shall come in is not easy to determine. The law permits fifty scholars to a room. The eight rooms now available for East Saugus might therefore be presumed to afford accommodation for 400 pupils. In actual practice, however, the increase in school population is never spread evenly over all grades, but is usually confined to a few of the lower ones, and in those grades the limits of our present

accommodations are very near. Without predicting just when it will be necessary for the committee to hire rooms for school use at East Saugus, and at Cliftondale, we do feel safe in saying that further accommodation for the growing school population of these two portions of the town is a problem which those who have the interests of the town at heart, must even now begin considering.

Superintendent of Schools.

The committee recommends that its appropriation be made large enough this year to permit the employment of a superintendent of schools who shall give to the town all of his time. This recommendation is not based upon any dissatisfaction with the efforts of the present superintendent of schools, but upon our feeling that the number of scholars and number of school rooms now under the charge of the school department has become so much larger than when the present arrangement for a superintendent was made that anything short of a man's whole time is inadequate for proper supervision.

The present cost for a superintendent is \$1,100 per year, the committee having increased the pay of this office during the past year from \$1,000 to that figure, because the town of Stoneham had already taken the same action. For \$400 per year more, or \$1,500 in all, the committee feels confident it will be able to employ a satisfactory superintendent who shall be resident in the town and be accessible to its citizens every evening, beside being in touch with the schools every day. The officials of the State Board of Education have assured us that there certainly will be a large number of applicants for the position at that salary because it is the same wage which is paid to those district superintendents whom the state board directs and who have several towns under their care. The opportunity to get the same pay for work in a single town and near Boston seems to that board certain to appear most attractive to such district superintendents. The State Board of Education have further been kind enough to promise us their assistance in choosing a good superintendent.

Conditions Have Changed.

A comparison of conditions which prevailed here when the present superintendent began, with those which exist to-day shows most convincingly why the arrangement for a superintendent in common with Stoneham, which was very satisfactory then, cannot in the nature of things be the best arrangement for to-day. The present superintendent began in May, 1894. The total number of children of a school age in the town then is shown by the census of that year to have been 780 and the average attendance at school, 706. Then, only nineteen teachers were employed, Cliftondale had only about 285 scholars as against nearly 700 now, and the High School had about forty-seven scholars. The whole appropriation for the committee's use by the Town was only about \$12,100. Today the town employs more than twice as many teachers as then, has nearly 1,500 scholars or about as twice as many as then, and the appropriation for the conduct of the schools is \$34,000 or nearly three times the appropriation of that time. Conditions have certainly materially altered. Try as a superintendent may, we do not believe it is possible for him to adequately supervise our schools in half his time. It is not a matter of lack of will on his part, but physical inability to cover so much ground. It has meant not only that the district schools at Lynnhurst, North Saugus, and Oaklandvale cannot receive anywhere near so good supervision as that of the schools in the more thickly settled parts, but it has meant that many problems must come to members of the committee for solution which ought to be handled by a superintendent closely in touch with actual conditions. Furthermore, the committee realizes that for many parents it is absolutely impossible to call upon the superintendent of schools during the daytime to discuss with him matters which concern their own children and that they cannot conveniently see him evenings, unless he is resident in the town.

Respectfully submitted,

HENRY J. MILLS,
GEORGE M. AMERIGE,
FRANK J. P. BENNETT, JR.

We estimate that we shall require for the year 1908 as follows:

Teachers	\$23,400 00	
Superintendent . . .	1,500 00	
Janitors	3,620 00	
Supplies	2,400 00	
Fuel	3,600 00	
Incidentals	1,000 00	
Water, gas and electricity .	330 00	
		\$35,850 00
Deduct amount probably receivable from the State, and from the city of Boston for tuition		450 00
		\$35,400 00

Report of the Superintendent.

To the School Committee :

GENTLEMEN,—The Superintendent of Schools herewith presents his fourteenth annual report.

The state law requiring annual school reports was passed in 1838. Previously they were prepared in manuscript and read in town meeting, but when in 1839 it became necessary to send reports to the state, several towns had them printed. The advantages of having them put in a form in which they could be circulated and read by the people of the Town were so evident that the custom spread rapidly. In 1839, not more than half a dozen were printed; in 1840, twenty-five; in 1841, thirty-three including Saugus, sixteen being from Essex County.

At this time Saugus had a population of about 1,000 with 257 scholars in school in summer, and 205 in winter. Five teachers were employed and the average wages paid per month including board was \$16.60. The total amount of money raised for the support of schools including only wages of teachers, board and fuel was \$850. This amount compared favorably with the school appropriation of other cities and towns. In the same year Lynn had in school 1,606 children in summer and 1,534 in winter, and the total amount raised for support of the schools was \$5,000.

By comparing the foregoing statements with the statistics for the present year we see that the Saugus schools have had a remarkable history of growth and development. This fall we had in school six times as many children as in 1840 and twice as many as thirteen years ago.

For the year ending June 30, 1907, the total average membership for the town was 1,433, an increase of sixty-six. The

average membership for the fall term ending Dec. 20, 1907 was 1,511, a gain of fifty-eight for the year. The total enrollment for the fall term was about 1,600. For the past two years the largest increase has been at East Saugus.

The present teaching force includes a superintendent, two supervisors and forty-one regular teachers. There are six teachers in the High School, eight in the Roby, fifteen at Clifftondale, eight at East Saugus including the new school, and four in outside districts. Six of these teachers are college trained, twenty-four are normal school graduates, and three others have attended normal school without graduating. Among the regular teachers there is but one man — the high school principal.

Our schools are housed in eleven school buildings having forty-two class-rooms and, with the exception of the high school, every one is occupied. At Saugus Center there are two unoccupied buildings which have been used for school purposes. Unfortunately they are not located in that part of the town where additional accommodations are needed.

At the opening of school in September it was found impossible to seat all pupils at East Saugus even though the ninth grade had been transferred to the high school building and many of the other children had been sent to the new school on Lincoln avenue. The problem was solved temporarily by placing the entire school of grades seven and eight in the new building leaving only six grades in the four rooms at East Saugus. Grades one and two were separated each forming a school. Grades three and four together formed one school, but with too many scholars for the best work. There is need at East Saugus of eight school-rooms and steps should be taken at once to meet the need.

At Clifftondale there has been no increase during the year. All the school-rooms are occupied and every one is comfortably full. In a few cases it has been with considerable difficulty that all children of a grade were seated, yet after much planning and numerous transfers this was accomplished. There has been a disposition to avoid the Lincoln avenue school, due in part to the difficulty in keeping the rooms warm enough in cold weather

and in part to the sanitariums which are in the rear of the building some distance removed. It is believed that the changes which have been made in the heating apparatus, together with other precautionary measures, will remove the first objection. If this is not the case the remaining old furnace should be examined, and if insufficient a new one should be installed. To remove the second objection, I would suggest that steps be taken to provide sanitariums in such form and location that they may be clean, comfortable, warm and easily accessible.

Should the number of pupils at Cliftondale increase to such an extent that another school becomes necessary one could be provided at the Felton by removing the ninth grade to the High School building.

At North Saugus there are two schools and about fifty pupils. The older scholars use the lower floor and the younger ones occupy the second story. As the room on the second floor is used for other purposes the desks have never been fastened to the floor. It would be of considerable advantage to the school if the room could be permanently and more adequately furnished. When this is done it would be better to have the older pupils go up stairs rather than the very youngest.

Teachers.

During the year 1907 twelve teachers have withdrawn. Eight were offered more salary elsewhere. To make good these losses and to provide for the increase of pupils, thirteen teachers have been engaged. The following is the complete list of changes to date :

WITHDRAWALS	SCHOOL	ELECTIONS
Alice G. Preston	Felton	
Eva May Brewer	Roby	Lena Schenk
Lotta M. Wentworth	North Saugus	Florence M. Little
Grace E. Penney	Oaklandvale	Effie E. Campbell
Edith M. Clark	Roby	Mary W. Hall
Lucy M. Hayes	Lincoln Avenue	Florence L. Brooks
Maud L. Plummer	North Saugus	Edith R. Day

Elizabeth P. Lefavour	Felton	Nellie M. Peabody
Elizabeth B. Sawyer	Lincoln Avenue	
Grace M. Stone	Lincoln Avenue	Ida B. Macdonald
Ina E. Hildreth	New School	Emily McFadden
Lucille C. Morse	New School	Gertrude R. Sherman
	East Saugus	Marah G. Stebbins
	Felton	Fannie N. Allen
	East Saugus	Edna C. Purvis

During the past two years we have found it necessary to engage twenty-six teachers. At this rate we should have an entire change of the teaching force as often as every three and a half years. With such frequent changes it becomes very difficult to maintain a high standard of schoolroom efficiency. Indeed it becomes almost impossible to develop plans for improvement which extend over a number of years. Our best teachers usually work with us not more than two years and then pass on to more lucrative positions. This means frequent and expensive interruptions. Sometimes it involves the surrender of enterprises before the successful issue is reached. Under these conditions the best results are impossible.

One of the most influential factors in effecting this unfortunate condition is the low salaries paid the teachers. If mechanics were paid five dollars a day in Saugus and six dollars in all of the adjoining cities and towns skilled workmen of this class would leave Saugus as rapidly as they secured satisfactory employment elsewhere. Unless the supply was greater than the demand, in a short time there would be no skilled mechanics working in this Town. The same law of supply and demand alike influenced by money compensation is operative among teachers. Nearly every city and town in this section of New England pays its teachers more than Saugus. Hence there need be no surprise that our most skillful teachers give us but a short term of service.

To compare the salaries paid teachers with the day wages of mechanics or common laborers involves some difficulties. The active duties of the teacher cover about forty weeks, while in the

other occupations mentioned the year is a full fifty-two weeks. The teacher is paid an annual salary, out of which she must pay her expenses for a full year. The teacher is given release from school-room service during the summer, but it is not expected that she will use this time in any other occupation. She is encouraged to, and usually does spend the time in rest and self-improvement, often taking a course of study at some summer school. In Saugus the prevailing salary of grade teachers is \$500. This is equivalent to \$9.61 a week or \$1.66 a day for fifty-two weeks. It is less than the wages of the unskilled laborer of whom nothing by way of preparation is required. The teacher must meet rather exacting requirements before she may hope to obtain a position. In addition to a High School course of study she must have had some experience or special preparation for her work.

The purchasing power of the salary paid the teacher is less than the same amount paid in wages to the workmen, because her expenses for clothing, board and room are greater. The purchasing power of the same salary in different towns is not always the same. Teachers receiving an annual salary of \$420 and paying \$4 a week for board are getting the same money as teachers in Saugus with a salary of \$500 and board at \$6 a week. The fact that living expenses in Saugus are high as well as the additional fact that good boarding places for teachers are hard to find greatly increases the difficulty of obtaining efficient teachers. It has sometimes happened that teachers could find no suitable accommodations in town and were compelled to locate elsewhere. At present no less than ten teachers are living out of town.

The efficiency of the schools depends in no small degree upon the permanency of the teaching force. To obtain greater permanency it is necessary to increase the salaries, provide comfortable and home-like boarding places, and secure to the teachers happy conditions of work. The contented teacher is less easily disturbed by an offer of more salary. The dissatisfied teacher will change at the first opportunity, sometimes even at a financial sacrifice.

High School.

The High School has had a successful year. Its management is capable and efficient and its methods of discipline and instruction are of a high order. The school continues to grow in size and usefulness. If there is a large increase in the enrollment next fall it will be necessary to employ an additional teacher.

The lunch counter arrangements might be made much more satisfactory, and the character of the lunches furnished greatly improved if some changes and additions could be made in the basement where lunches are furnished. For the convenience as well as the health of the pupils a small outlay for this purpose is urged.

Your attention is invited to the report of the High School Principal.

Mr. C. E. Stevens, Superintendent of Schools:

DEAR SIR,—I herewith submit to you my sixth annual report of the Saugus High School.

Enrollment	145
Average membership for the year	132.47
Percentage of attendance	93 $\frac{1}{2}$
Present membership	137

Once more we can say that the membership of the High School for the past year has been the highest in the history of the school. Again we have nothing unusual to report. The routine work outlined in the course of study has been carried forward in the usual way. There has been no change in the corps of teachers.

The cordial relations between pupils and teachers, and the hearty goodwill and enthusiasm which has been characteristic of our school for several years has been shown to even a greater degree this year and is a source of gratification to all.

In addition to our regular work our declamations, the observation of Memorial Day, and of the birthdays of Lincoln, Longfellow and Whittier, the editing of the school paper, the work of the school orchestra, and of a monthly debating society have all been sources of pleasure and of profit to our scholars.

Most of our studies are designed to improve the mind; few to train the heart, the esthetic side, to inculcate a love for the beautiful in art and in nature which adds so much to the happiness and usefulness of one's life.

Believing in the silent influence of surroundings we have tried to make our school not a gloomy prison for drudgery but a workshop, bright, clean, and attractive in its environment. We have tried to beautify our grounds, keep them neat and clean, and to decorate the walls of our school-rooms.

Last spring with the assistance of the School Committee we seeded and rolled the east side of our grounds which were nearly bare, set out some trees, nearly two hundred shrubs, and planted flower seeds and bulbs. The result was better than we expected the first season. In the fall we planted about 1,300 bulbs, and more recently from the proceeds of our art exhibit we have purchased the following pictures:

Bastien-Lepage's Joan of Arc.

Barth's Choosing the Caskets.

Wagner's Chariot Race.

Adam's End of Day.

Alma-Tadema's A Reading from Homer.

Hobbema's Avenue of Trees.

In this connection should be mentioned the beautiful gift of a bust of Lincoln presented to the school by the class of 1907.

Financial Report.

Amount of money on hand Jan. 1, 1907	\$24 60	
Received from public exhibition . . .	31 75	
Received from art exhibit	62 27	
Received from sale of recitation programs	5 85	
Total		\$124 47
Paid for printing programs	\$5 75	
Paid for elocution teacher	25 00	
Paid for seeds, bulbs, etc.	1 20	
Paid for recitation programs	6 00	
Paid for drawing paper, special size	1 00	
Paid for pictures	62 27	
		101 22
Amount on hand Jan. 1, 1908		\$23 25

Respectfully submitted,

LELAND A. ROSS.

Music.

Mr. C. E. Stevens, Superintendent of Schools:

DEAR SIR,—The general work of music in the various grades has remained the same during the past year, but a gain may be said to have been made along certain lines.

The study of music forms a prominent feature in the regular work of the school. Almost universally singing is included in the daily opening exercises. In some schools each day begins and ends with singing—a most commendable practice.

The subject of correct tone produced is important. I am convinced that too much care cannot be taken during the early years of school life.

Teachers, having classes of forty-five children cannot obtain results as satisfactory as the private teacher secures from one

pupil. I suggest more careful attention be given to the formation of a pure, sweet quality of tone and the utter banishment of all harsh or forced tones. If a teacher is able to get her pupils to give her a sweet musical quality of tone in the daily music lesson its softening, refining influence is felt throughout the day.

The effort to bring the work in music more closely into line with the other branches taught and to make it a substantial study has led to increasing emphasis being put upon individual reading and singing.

The result so far has been gratifying and it is my hope that, at the end of the Grammar school course, our pupils shall be so equipped musically that they can appreciate and enjoy good music, sing at sight any simple melody or a second or a third part in a chorus.

I believe that nothing aids so much the ability to do anything as enthusiasm. I have noticed a marked difference between the class in which the teacher was enthusiastic and inspired her pupils with the idea that they were capable of doing good work, and the class in which the teacher did not enjoy the subject.

It is not necessary that the teacher be able to sing well herself, so long as her attitude toward the subject be one to inspire confidence on the part of the pupils.

In closing, I wish to thank all who have aided me by kind work and co-operation.

Respectfully,

HELEN M. PAGE.

Drawing.

Mr. E. C. Stevens, Superintendent of Schools:

DEAR SIR, — After five years of conscientious work to develop a course of study adapted to the conditions in Saugus, we begin to see the kind of results that repay us for our efforts. The subjects are practically the same as those studied last year but our manner of presenting the subjects has improved I believe.

The teachers are a most interested and active body, always eager to advance. This has been true in the past and is so in relation to the industrial work we are attempting this year.

The movement for industrial education is one over which much study is being exerted. Experiments from which interesting results are yielded, help us to find our way toward success. Special equipment makes industrial education a burden and prevents many towns and cities from supporting such a movement. We are in this class. We cannot seem to afford special equipment but feel we need some form of manual training.

In the early fall I started an experimental course in manual training, closely associated with our course in drawing. In the spring term we hope to hold an exhibition to show all who care to know what we can do in the line of manual arts, without special equipment. The support that we ask is the interest of the people of Saugus in what we are trying to do. The applied mathematics, if I may coin such a term, making the best possible use of materials and conditions, planning without waste, economy and co-operative spirit, are all parts of the general education of our children we cannot afford to overlook.

As a supplement to my report I wish to call your attention to the list of works of art acquired by our schools during the past five years. (See appendix.)

Respectfully submitted,

C. EDWARD NEWELL.

Industrial Education.

Interest in all forms of manual training is wide-spread and increasing. Sloyd and sewing have an established place, cooking is on the increase, school gardening is no longer an experiment and trade schools are pushing for recognition. Industrial education is not only a school question but also a social and a commercial problem. The welfare of the society and the development of business enterprises are involved. There is need of careful study and wise leadership.

Last year by legislative enactment a Commission on Industrial Education was appointed by the governor "charged with the duty of extending the investigation of methods of industrial training and of local needs, and aiding in the introduction of industrial education in independent schools." The law which provides for the appointment of this commission offers state aid to any city or town, or a union of two or more cities and towns, establishing an independent industrial school approved by the commission. There is little in this offer to interest a town situated as Saugus is. Why not amend the law so that state aid may be available to any town establishing in its present high school a department of industrial education approved by the state authorities. A change of this character seems to be necessary if the cities and towns too small to establish two high schools are to have aid from the state in solving the problem of industrial education.

There are some things looking toward a solution of the problem which may be done without waiting for the state. I should like to repeat the statements in my report of last year in regard to sewing and sloyd. "To anyone who has seen class work in sewing no argument is necessary to prove its practical value and its great interest to the girls. I am in favor of introducing sewing as a part of regular school work in the upper Grammar Grades. A course of one hour a week for two or three years could be offered without great expense. If the girls furnished their own material, as is customary, the annual outlay need not exceed \$200.

Some form of manual training for the boys is quite as necessary and should be provided. A room can be equipped with benches and all the tools necessary for accommodating a class of twenty for about \$400. One such room might serve the whole town, for classes could go to it once a week from the several schools to take the lessons. If the lessons were offered to boys of as many as three grades, the annual expenses for an instructor would be about \$600."

Last spring many of our teachers took special interest in making school gardens. At nearly every school building in

town something was attempted and much was accomplished. Vegetable and flower seeds were obtained from Washington, dressing was secured by purchase and by donation, and the work of preparing the ground, planting and caring for the gardens was done by the pupils. I am pleased to be placed on record in favor of every effort of this kind. The educational value of school gardens and home gardens is generally recognized. It would be well if every child as early as eight years of age had a home garden. Parents who are striving to train their children to become useful men and women must give attention to the problem of providing them with profitable employment when not in school. The home garden will help to solve the problem wisely and well.

Physical Education and Medical Inspection.

No argument is necessary to show that the first and most imperative need of education is the care and proper development of the body. Abounding health and a well-balanced nervous system is the very foundation of all education. If this is well laid it gives us hope that satisfactory results may be reached in the intellectual and moral phases of education.

One cannot begin too early to study the physical condition and needs of children, nor be too prompt to obtain necessary help and careful correction for every weakness and limitation of childhood. Without doubt many physical disasters of middle life might have been prevented had proper attention been received in childhood. The tendency has been for parents and teachers to treat with indifference the physical side of education, but recently the subject has received unusual attention. There is evidence that physicians, educators and law-makers as well as the more thoughtful parents are awakening to the real significance of the movement.

An act of the legislature of 1906 provides for the appointment of school physicians in each city and town, and makes annual examinations of the school children by the teachers compulsory. The law serves an excellent purpose and its provisions have been very generally adopted. In Saugus no

provision has been made for paying a school physician and none has been appointed, but for two years the teachers have attended to the duties required by them by this law. Last year about 200 notices were sent to parents informing them of defective eyesight or hearing of their children. In some cases the parents took action by seeking professional aid and did all possible to remedy the defects, but in other cases no attention was paid to the notice. As nearly all notices sent referred to defects which could be cured or greatly helped, the importance of attending to the matter should be evident to every parent. This year 145 notices have been issued and it is hoped that in every instance the advice of a specialist will be obtained and followed.

Careful and continuous attention should be paid to the physical needs of childhood. Healthy children are a valuable asset to any town or state. It is easier and more economical to give proper attention to the development of healthy bodies than to care for the diseased, deformed and insane of later years. Not all such cases are preventable, but many are when expert service begins in the earliest years. It is good policy for the town to employ a school physician and require of him careful examination of every child of doubtful health at least once a year. In this way incipient disease is discovered early and properly treated. Weaknesses often unsuspected by parents are detected, and the necessary advice given. Teachers may learn from the school physician how to modify the usual schoolroom requirements that every child may be treated according to its physical limitations. Both teachers and pupils need the advice which a competent school physician can give. Saugus should not be the last town in the state to make provision for his employment.

In this connection allow me to call your attention to the importance of having soap and clean towels systematically supplied to the several schools. In the interest of health and cleanliness it should be done. Children should never be allowed to take their seat unless face and hands are clean, and yet teachers are unable to insist upon this reasonable requirement when the buildings are not equipped with the necessary conveniences.

The school books would wear longer and be much cleaner if this suggestion were adopted. Probably the gain made in this way would more than pay the soap, towel and laundry bill.

Respectfully submitted,

CHARLES E. STEVENS,

Superintendent.

Summary of Sight and Hearing Tests.

Classification.	High School.	Saugus Centre.	Cliftondale.	East Saugus.	Ungraded Schools.	Total.
Number of pupils examined	135	370	590	205	91	1,391
Number defective in right eye ..	20	55	92	31	18	216
Number defective in left eye ...	16	55	98	28	17	214
Number defective in both eyes ..	15	47	78	19	11	170
Number very defective in eyesight	9	11	20	8	7	55
Number wearing glasses.....	16	16	29	9	3	73
Number defective in right ear....	12	13	11	8	3	47
Number defective in left ear	12	15	11	8	3	49
Number defective in both ears ..	9	11	9	7	3	39
Number very defective in hearing	5	4	5	4	2	20
Number of parents notified	11	25	67	24	18	145

The following are not included in the figures given above :

1. Many children of grade one.
2. Pupils not in school in December.
3. Eye tests of pupils wearing glasses.

SUMMARY

FOR THE YEAR ENDING JUNE 30, 1907.

Whole number enrolled in all schools	1,659
Number of boys	794
Number of girls	865
Number under five (5)	5
Number over fifteen (15)	153
Number between seven (7) and fourteen (14)	1,104
Average membership	1,433
Average attendance	1,310
Per cent. of attendance	91.4
Number of teachers employed, including specials (2), ...	41
Increase during the year	1
Number of teachers withdrawn for the year 1907	12
Number of new teachers for the year 1907	13
Number of different schools	34
Increase during the year	3
Number of tardinesses	2,804
Number of dismissals	1,168
Number of visits, not including those of Committee and Superintendent	2,368

FOR THE FALL TERM, 1907.

Average membership	1,511
Average attendance	1,415
Per cent. of attendance	93.6
Number of teachers, including specials (2)	43
Number who have attended Normal School	27
Number who have graduated from Normal School	24
Number of children in Town, September, 1907, from 5 to 15 years of age	1,393
Number of boys	692
Number of girls	701
Number between seven (7) and fourteen (14)	987

Graduating Exercises
OF THE
Class of '07 Saugus High School

Tuesday, June 25, 1907.

PROGRAM.
